

THE Democrat says how we know that the Government of Maximilian does not suit the people of Mexico. Certainly we all know that Mexico was not allowed freedom of choice in the matter. The despotism of Maximilian was imposed upon the people of Mexico by the arms of the United States. The people of Mexico were not allowed to choose their own ruler. They were forced to accept Maximilian, and they are now suffering under his rule. The people of Mexico are not allowed to choose their own ruler. They are forced to accept Maximilian, and they are now suffering under his rule. The people of Mexico are not allowed to choose their own ruler. They are forced to accept Maximilian, and they are now suffering under his rule.

The editor of the Democrat does not want to assert the Monroe doctrine now, because, as he claims, we ourselves have not at present a Republican Government. He says that we have not a Republican Government, and he says that we have not a Republican Government. He says that we have not a Republican Government, and he says that we have not a Republican Government. He says that we have not a Republican Government, and he says that we have not a Republican Government. He says that we have not a Republican Government, and he says that we have not a Republican Government.

The editor tells the people that he doesn't give up the Monroe doctrine, but that when he gets the Monroe doctrine, he will give up the Monroe doctrine. He says that he will give up the Monroe doctrine, and he says that he will give up the Monroe doctrine. He says that he will give up the Monroe doctrine, and he says that he will give up the Monroe doctrine. He says that he will give up the Monroe doctrine, and he says that he will give up the Monroe doctrine. He says that he will give up the Monroe doctrine, and he says that he will give up the Monroe doctrine.

We hope every candidate for the General Assembly will be a Republican. We hope every candidate for the General Assembly will be a Republican. We hope every candidate for the General Assembly will be a Republican. We hope every candidate for the General Assembly will be a Republican. We hope every candidate for the General Assembly will be a Republican. We hope every candidate for the General Assembly will be a Republican.

The Democrats of Ohio, corresponding in principle and feeling with our anti-amendment men, have in State Convention, nominated the Hon. Alexander Long for Governor. These who have read a remarkable speech made by Mr. Long during the last session of Congress know that there is no man more fit to be Governor of Ohio than Alexander Long. These who have read a remarkable speech made by Mr. Long during the last session of Congress know that there is no man more fit to be Governor of Ohio than Alexander Long.

The Vincennes News expresses a hope that Gen. Rosecrans will never vote with the Democratic party. Very likely he will never vote with the Democratic party. Very likely he will never vote with the Democratic party. Very likely he will never vote with the Democratic party. Very likely he will never vote with the Democratic party. Very likely he will never vote with the Democratic party.

The Brannanville Journal says that, as the editor of the Louisville Journal has long been a Democrat, he will not vote with the Democratic party. He will not vote with the Democratic party. He will not vote with the Democratic party. He will not vote with the Democratic party. He will not vote with the Democratic party. He will not vote with the Democratic party.

The Federal forces in the South are now putting the railroads as they come time ago put the rebel army in running order. They are putting the railroads as they come time ago put the rebel army in running order. They are putting the railroads as they come time ago put the rebel army in running order. They are putting the railroads as they come time ago put the rebel army in running order. They are putting the railroads as they come time ago put the rebel army in running order.

CONQUER EARLY!
The Kentucky Farmer is now in a position to
conquer the market for his produce. He can do so
by selling his produce at a low price, and by
buying it at a high price. This is the only way to
conquer the market.
